ROTO-BRITE® L-824 TECHNICAL DATA SHEET

LIQUID CLEANING COMPOUND

APPLICATION:

ROTO-BRITE® L-824 is a highly alkaline, heavy duty, industrial grade cleaner designed to remove tenacious oils and greases from steel and stainless steel parts. Recommended usage rate is 1-4 ounces per gallon of water, depending upon the level of soil to be removed.

CHARACTERISTICS:

- Unaffected by water hardness
- Completely biodegradable
- Excellent cleaning in ceramic, plastic or steel media

PROPERTIES:

- Sweet odor, blue liquid
- Reactivity: pH of concentrate = 13.13; pH at 1% in distilled water = 10.25
- Density = 1.1 gm/cc; 9.13 pounds/gallon

FIRST AID:

Should contact occur, flush area with plenty of water. For eyes, flush with water and seek medical attention immediately.

CAUTION:

Exercise care when handling this product. It is highly alkaline, hence contact with eyes and mouth should be avoided. Excessive contact with skin should also be avoided. Wash with soap and water after contact.

The data presented are believed accurate. Roto-Finish Company, Inc. can guarantee only its product. User must verify suitability to his own application.
